

The 50 MHz DX Bulletin

Volume 16, Issue 8

August 2005

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools K3HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$24 U.S. first class mail, \$27 Canada/Mexico airmail, and \$30 by airmail elsewhere for 12 issues. Payments may be made to k6fv through PayPal. Circulation matters and DX reports should be sent to Victor R. Frank, K6FV, 12450 Skyline Blvd., Woodside, CA 94062-4554 USA. My Internet address is victor.frank@sri.com. My web site is <http://www.qsl.net/k6fv>. The bulletin may be freely quoted, provided that credit is given.

DX Operations

Most of the listings in this column came from SMIRK, OZ6OM's Daily DX and SM7AED's notebook.

Russia: Asia or Europe or mangled call? We've listed both of these as Europe. PA5JS reported a JT6M contact on August 19 with RO9GVX, and HA5XXA reported a contact on August 24 with UA0VA/P. Portable where? No grids!

Chagos, VQ9LA: Larry has returned and will stay until May 2006.

Namibia, V51/DJ4SO: Klaus will be active on 6m between September 18 and October 12.

Kuwait, 9K2YM: A number of 6m contacts with Europeans were noted on August 25.

Syria, YK1AO: A number of 6m contacts with Europeans were noted on August 7.

Malta, 9H0: Several members of the Dutch club VRZA will be active on 80-6m between September 10 and October 3.

Mali, TZ5A: Ned, AA7A, writes that he has gotten the Mali PTT to add 6m privileges to his license. He expects to have several days around the CQ WW CW contest (in November) to focus on 6m.

Morocco, CN2DX: Andre, HB9HLM, plans to concentrate on 6 and 2m from a rented beach house in IM63BM between October 1 and 14.

Senegal, 6W7RV: F5CW reports this station on 6m on August 22.

Bermuda, VP9/WA4PGM: Kyle plans 160-6m activity from September 9 to 13.

Guantanamo Bay Cuba, KG4WV or KG4SB: Jose, N4BAA plans 160-6m operation starting October 25 and lasting one week or more. January 2006 is also on Jose's calendar.

Barbados, 8P9: A group of W3s plans 6m operation before and after the CQWW SSB contest in late October. They will arrive October 25 and depart November 1.

Grenada, J3/SP9PT & J3/SP9BJ: plan activity on 40-6m between October 26 and November 8.

Honduras, HR9/WQ7R: Ray plans HF and 6m operation from Roatan (NA-057) between October 22 and November 4.

South Pacific/Chile, CE/LA6IKA: Svein will be onboard a cruise ship September 13 through January 13. The trip will include multiple stops with expected activity from Chile and Easter Island in the December 6-13 time frame. He plans 6 through 40m activity with an IC-703 and simple vertical antennas.

Kure Is., KH7K: A multinational team plans to set sail September 16 from Honolulu and arrive at Kure Is. a week later. Look for 6-160m activity starting around September 24 and lasting through October 8.

Solomon Is, H44 & Temotu, H40: Members of the Korean DX Club plan to operate at least two stations on 160-6m during November. The operation from Temotu Province will take place from Nendo Is. (OC-100) from November 5 to 11. Activity from the Solomon Is. (OC-047) is expected to take place both before and after the H40 operation.

Beacon Reports

St. Helena, ZD7VC: in IH74 was activated August 28 on 50.007. It has 35W to an M2 HO loop with a fantastic takeoff to EU and North America.

California, K6FV: on 50.069 has been redirected into the South Pacific for the months of September and October.

August 2005 DX Reports

The following reports of 50 MHz DX propagation are courtesy of JA1VOK, YO7VS, K6QXY, G4UPS, VE7SKA, XE2HWB, and postings on the Internet. Apologies to any sources I may have inadvertently neglected.

Propagation reports this month have been very numerous. I attempted to obtain a mixed sample of DX and rare countries by limiting most listings from the Internet to >2200 km. These include distances in kilometers. These are determined preferentially from the grids in the post, and otherwise from one or both of the prefixes of the calls. Note that the latter results in VERY rough approximations to the distances, especially for large countries and call areas.

The first entry is *mmddhhii*, where *mm* is the month, *dd* is the day of the month, *hh* is the hour UTC, and *ii* is the minutes after the hour. The year is understood to be 2005. Symbols just before the call of the reporting station include: V=Video Carrier, I=Inband video sidebands, F=FM audio, B=beacon, C=CW, D=Telemetry Data, J=Digital, typically JT6M, R=RTTY, S=SSB, W=mode not mentioned (or both CW & SSB), H=heard only. BSc = backscatter.
